Precipitation probability					
20%	30%	30%	20%	20%	<05%

Forecast for Monday 26 Jun 2023

Weather: A mixture of sunny intervals and scattered showers, some heavy with the small risk of thunderstorms. The showers tend to die out through the evening with some late sunshine around then clear spells.

Chance of cloud-free hill tops above 800m: Close to 100% at first and again later but around 75% through the bulk of the day.

Low cloud and visibility: Occasional cloud above 450m developing by mid-morning then lifting to around 900m by early afternoon, but nearer 600m in heavier showers. Otherwise visibility very good with some good views of surrounding fells and lakes, falling to several kilometres in heavier showers.

Valley	14/13	15/13	16/14	17/15	16/15	15/15	15/15
Freezing Level*	1800m	1700m	1800m	2000m	2100m	2100m	2100m

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

A much fresher feeling day than of late but the sunshine is still strong, bringing a risk of sunburn and dehydration.

Forecast for Tuesday 27 Jun 2023

Weather: Some clear spells at first but cloud above the summits increasing through the early hours. Then a rather cloudy morning with outbreaks of rain spreading east, the rain becoming more persistent and occasionally heavy, especially over western and southern fells. Best of any brighter spells expected across northeastern fells.

Maximum wind: Westerly or southwesterly 15-20mph, with gusts around 35mph over ridges and summits

Chance of cloud-free hill tops above 800m: Around 75% across northern and eastern fells at first, otherwise little chance across western and southern fells and nearer 25% in the northeast.

Low cloud and visibility: Occasional cloud above 750m in north and east at first and perhaps at times through the day, otherwise periods or persistent cloud above 600-750m lowering to 300-450m in more persistent rain, with patches below in the south and west. Otherwise visibility good, locally very good at first in the east, falling to several kilometres in rain.

Temperature: **Valleys:** Around plus 12 Celsius rising to 18 or 19 Celsius
At 800m: Around plus 8 Celsius rising to 12 Celsius
Freezing level: Above the summits
